MARTICO REEFER SOLUTIONS

THE CHALLENGE OF BEING REFERENCE

With the permanent challenge of providing integral solutions to our clients, MARTICO faces the opportunities offered by the market with the challenge of being a reference in the global logistics sector. These challenges are what motivate the human group that makes up this company to work every day to maintain quality levels in the service.

COMPREHENSIVE SERVICES

To be devoted exclusively to what is important to your business, you have at your disposal our Comprehensive Services, a 360° solution that ensures an effective and rigorous management of your transport.

SPECIAL PROJECTS

For your business to go full steam ahead, our special projects are aimed at addressing and resolving any challenge presented by our customers. We now have more than 30 years of experience helping our customers to make a success of such projects. At MARTICO all is not Reefer.

INSURANCE MANAGEMENT & LEGAL ADVICE

Good results are based on solid foundations. MARTICO in-house legal advice will allow you to anticipate any situation that may arise.

Furthermore, our team can insure your cargo, allowing you to cope more calmly with your day-to-day business.

LOGISTICS SERVICES

WHAT GOODS DO WE TRANSPORT?

MEATS AND SAUSAGES

Slaughterhouses, cutting plants, cold storage, retailers, final distributors, importers ...We work for customers throughout every stage of the sausage and meat production and marketing chain.

FRUITS AND VEGETABLES

The fruit and vegetable client always requires special knowledge of its genre. The client needs people who are attentive and understand their lingo. At MARTICO there is a special team working exclusively on handling this type of cargo.

FISH

Transportation of fish and seafood is complex because it requires great knowledge about its conservation conditions. Our professionals, experts in these conditions, guarantee safe transport.

OTHERS

We are currently regularly shipping a wide variety of perishable products from different sectors: cheeses, wines, oils, etc. We are familiar with international rules and regulations established for each product.

OUR CLIENTS

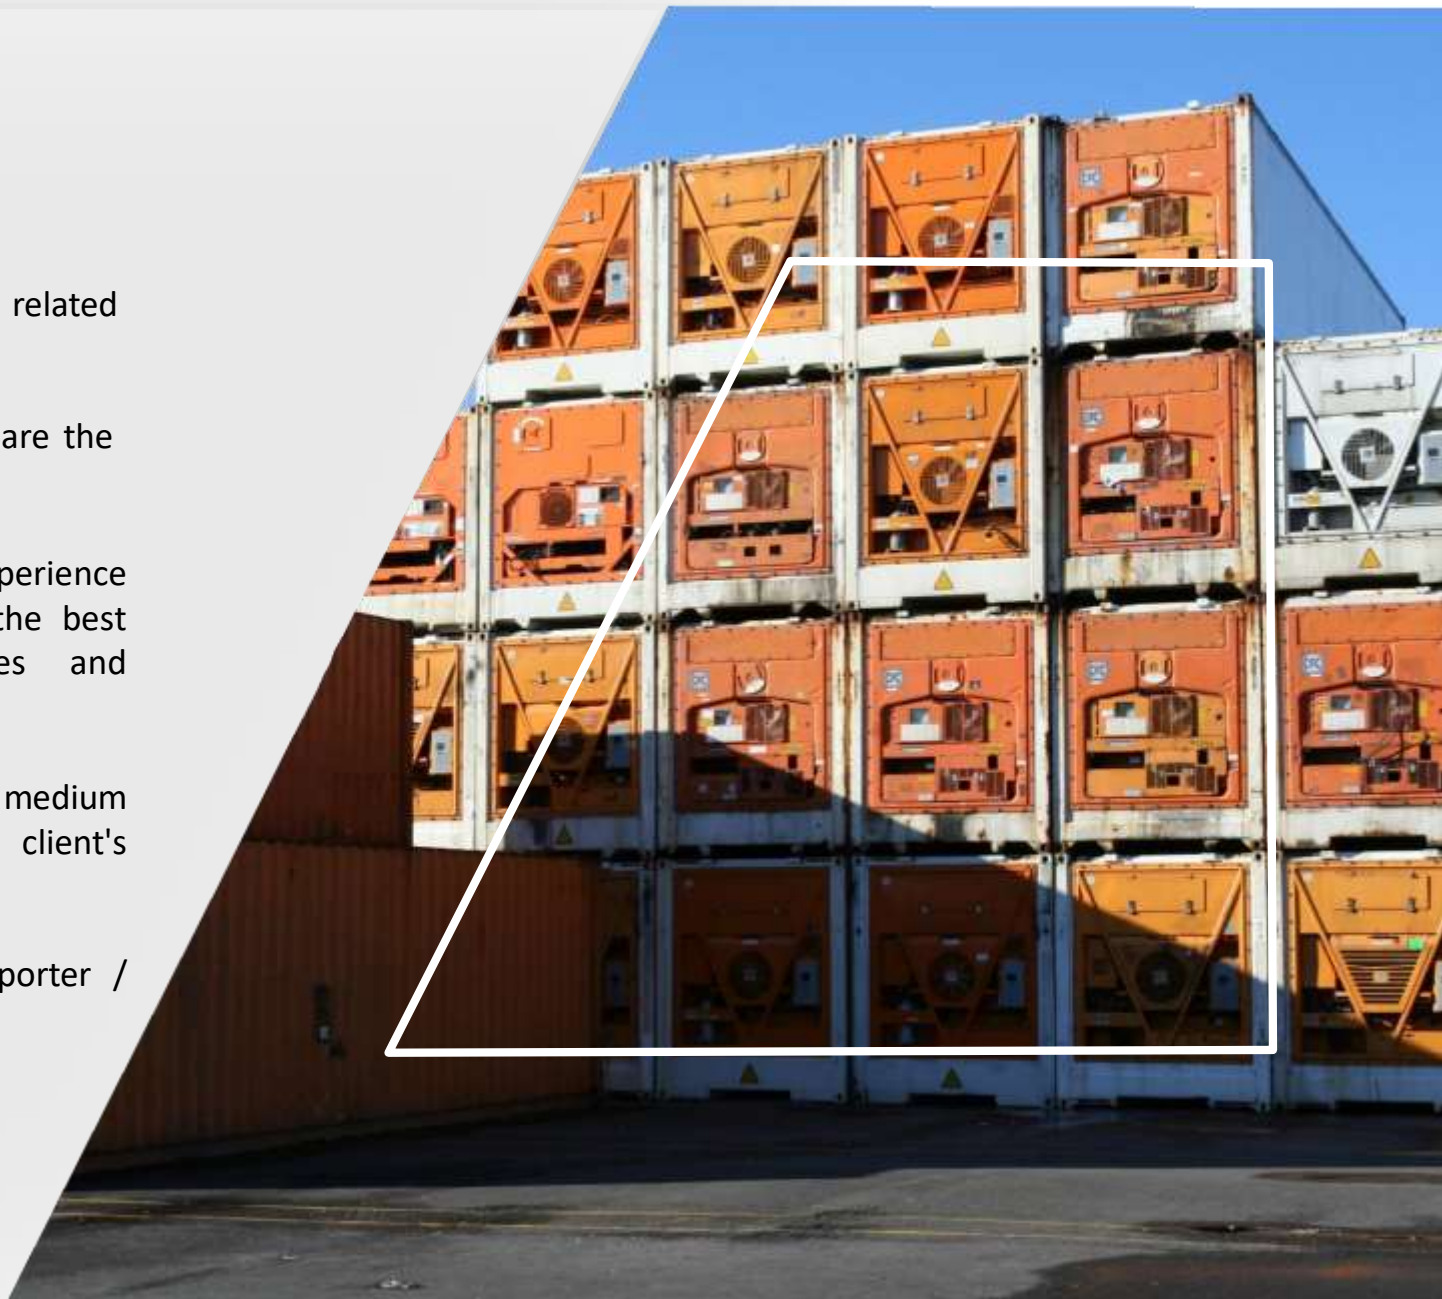

Our clients are large, medium and small companies, related to food globally.

We cooperate with many companies, for which we are the main provider of logistics services.

We have the best agents in each country. The experience they have in their home markets guarantees us the best service and knowledge with the procedures and idiosyncrasies of the country.

We are working on long-term agreements, as well as medium and short term validity projects according to the client's needs.

We are the logistics partner that a company exporter / importer needs to work with total security of success.

THE BEST TEAM

OUR PROFESSIONALS

We have the best professionals in the sector, with proven experience in logistics operations to give you the best solution in case of unforeseen events.

They analyze and design in a personalized way their global supply network, applying the actions of continuous improvement that help to optimize the processes reducing the costs and achieving greater operational efficiency and customer service.

At all times you will have the peace of mind of having a team of professionals 7 days a week, 365 days a year, pending that your goods arrive on time in the best conditions.

MANAGEMENT

LEGAL

INSURANCE

We have departments of Administration, Legal and Insurance, perfect connoisseurs of the Maritime Law, and who are alert 24 hours a day to solve any incident that may arise with your cargo.

We are one of the first companies in the world that is testing the RCM (Remote Controlled Monitoring) as well as other technological solutions that make us work in a comfortable and safe way.

REMOTE CONTROLLED MONITORING

WE ARE THE FUTURE

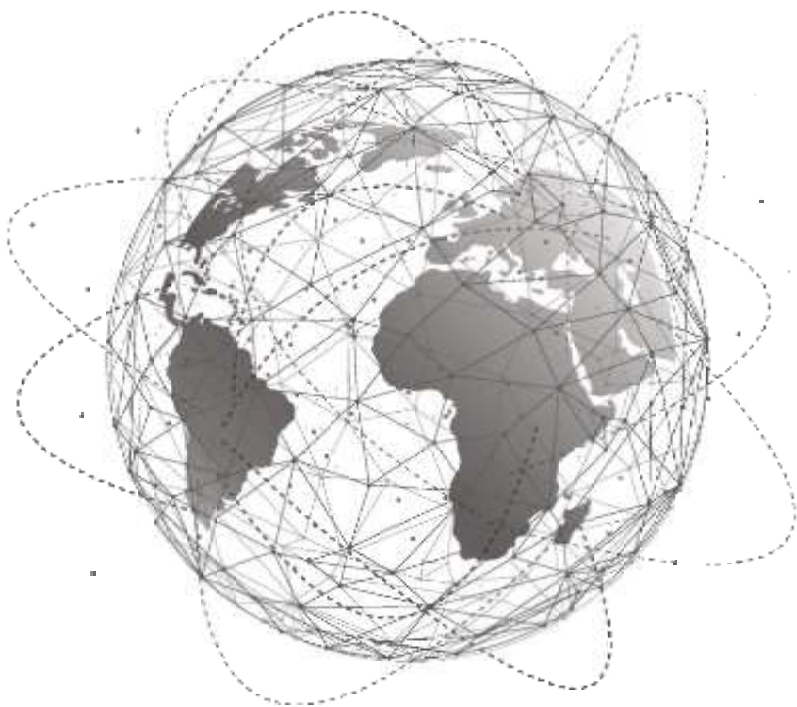

TRACKING AND MONITORING

We have one of the most modern general monitoring systems on the market. You can track your containers, check reservations, check loading ports, download port, view status, alarms ...
